SiT Sustainability in TCLF

Welcome to the SiT newsletter! We're excited to share our project's early activities and updates with you. In this edition, check out our new [SiT project video](#).

SiT Sustainability in TCLF Project

Our video presents the project goals and the key activities that we're carrying out to drive the sustainable transition!

Alongside the video, registrations are now open for two [free online courses](#) designed for anyone who wants to strengthen their skills in sustainability:

Recycling Manager

Practical skills in recycling processes, circular strategies and material recovery within the TCLF sector.

Biotextile Technician

An introduction to bio-based materials and their application in innovative and sustainable textile and fashion production.

Both courses are flexible, fully online and open to students, professionals and organisations.

Watch the video to see the SiT Project in action.

Enroll in the courses to upgrade your skills and contribute to a more sustainable TCLF industry.

Join our SiT community to stay up to date!

Let's keep in touch!

Don't miss out – subscribe to our newsletter and follow us on social media!
